EXPERIENCE

Front End Developer   03/2023 - 06/2023

Agarwal APML Packers And Movers   MUMBAI

SUCCESS

- Developed a dynamic React table for enhanced data visualization.
- Created a secure portfolio website with user registration, login, and logout functionality.
- Utilized MongoDB for efficient activity tracking and management.
- Passionate about delivering intuitive user experiences.
- Contributed to an IoT project, demonstrating strong coding logic skills.
- Worked extensively on IoT truck container data logger and real-time IoT light control.

Machine Learning Intern   07/2023 - 08/2023

OPS COMBINATOR PVT LTD   MUMBAI

One Percent STARTUPS

- Collected and preprocessed TV news channel data for analysis.
- Developed a robust data preprocessing pipeline to enhance data quality.
- Explored and selected appropriate machine learning algorithms for analysis.
- Trained and fine-tuned machine learning models using collected data.
- Evaluated model performance and implemented enhancements for better accuracy.

SUMMARY

I'm presently interning at a **product-based company**, where I'm actively engaged as a **full-stack developer**, honing my skills in **TypeScript, React, Redux, and Git** for comprehensive front-end and back-end development. Proficient in React within the **MERN stack**, I specialize in creating user-friendly experiences through dynamic React tables and secure portfolio websites. I thrive in collaborative environments and make it a priority to stay updated with industry trends to consistently deliver high-quality solutions.

EDUCATION

BSC COMPUTER SCIENCE   06/2021 - Present

THAKUR COLLEGE   **70.75%**

HSC-SCIENCE   2021

VALIA COLLEGE   **70.20%**

SSC   2019

SMT.R.M.V.   **67.20%**

STRENGTHS

◈ **TRUCK CONAINER IOT DATA LOGGER**
- Substantial expertise in IoT truck container and real-time IoT light control, driving innovation in front-end development.

◈ **TV News Channel Data Analysis and Machine Learning**
Skilled in real-time TV channel viewership tracking and data analysis, contributing to data-driven decision-making
